More than just a magazine

Gardening Which? is the only truly independent gardening magazine. We don't accept advertising, free product samples from manufacturers or free plants from nurseries. This gives us the freedom we need to report the facts about the products, plants and companies we put to the test.

In each issue you'll find:

- ❖ News stories to keep you up to date with developments in gardening and horticulture
- ❖ Test reports which reveal the Best Buy tools, chemicals and equipment
- ❖ Details of the best new plants and products
- ❖ Plant trials which highlight the best value plants for your garden
- ❖ Design ideas to inspire you
- ❖ Plant profiles packed with detailed information about popular plants
- ❖ New growing techniques to save you time, money and effort
- ❖ Membership benefits - including offers, competitions and much more

Nationwide trials

No-one works harder than *Gardening Which?* to find the best plants, products and techniques for your garden. We carry out tests and trials throughout Britain, including government test sites, universities and the state-of-the-art Consumer Research and Testing Centre at Milton Keynes. Many trials take place behind closed doors, but you can visit our Trial Gardens at Capel Manor College in north London.
